AGCO ALLIS

TECHNICAL PUBLICATION CATALOG

PART # 79017801B

CONTENTS

- A. General (Dealer Support) Materials
- B. Model Listing (English)
- C. Model Listing (Multi-Language)
- D. Footnotes

GENERAL INFORMATION

This catalog is compiled for Dealer use to provide a listing of publications for equipment as marketed by specific franchise(s) in North America. This catalog is to provide a general guide for the availability and ordering these publications.

IMPORTANT: This catalog replaces all previous catalog issues and pricing. Due to revision of many part (form) numbers, all previous catalogs should be discarded.

Publications are ordered through AGCO Parts Department using normal order procedures. All pricing and availability are confirmed through the parts department.

DEALER ORDERS

Dealer orders are placed as regular parts orders. All conditions and procedures, as established for parts orders, also apply to publication orders. All Dealer orders are debited to the Dealer's open account and will appear on the monthly statement.

CUSTOMER ORDERS

Customers are encouraged to contact their local Dealer with their publication requirements. Authorized Dealers have direct access to the parts system and can advise availability and pricing to their customers. In the event a Dealer is not available, retail customers can place orders directly with the AGCO by contacting:

AGCO Parts Division
ATTN: Order Services Department
1500 North Raddant Road
Batavia, IL 60510
(630) 879-3300

Customers may order operator and service (repair) manuals applicable to specific models. Customers CANNOT order repair time schedules (flat rate manuals) or other Dealer support materials.

Customer orders must be prepaid (sorry, no COD or credit card orders). Check or money order should be made payable to AGCO Corporation in U.S. funds. All customer orders will be shipped at list price including shipping and handling. Availability and pricing may be confirmed at the address above.

NOTE: Availability and pricing subject to change without notice.

PUBLICATION DEPARTMENT POLICIES

- 1 Orders will be processed and filled through the parts department following parts department standard order procedures.
- 2 Orders may be shipped from varying locations to facilitate storage and delivery.
- 3 Substitution of earlier publications may be required. Normally, the latest issue is maintained and in stock. The item received may reflect a differing part number.
- 4 Certain repair (service) manuals, requiring a binder and/or engine service manual(s), are ordered as one part number but may be received as individual components, each with a unique part number. To receive all components, use the "master" part number as provided in this catalog.
- 5 Due to diminished demand, reprint of first-run publications is not always feasible. Reprinted publications may be of lesser quality to reduce costs.
- 6 Operator book shortages in new machines are the responsibility of the source factory or the transferring dealer in the case of inventory transfers. All shortages must be claimed on a Damage and Shortage Report filed with distribution, or by contacting Dealer Central.
- 7 French operator book substitutions will not be made on a free exchange basis through the parts department. All exchanges are the responsibility of the dealer or must be arranged in advance through Dealer Central.
- 8 Materials will not be released free of charge unless the item(s) are indicated as being indicated by the parts department as being available at no cost.
- 9 Catalog revisions may be released periodically. All revisions should be placed with this catalog to facilitate future ordering. Dealers should check contents of this catalog and any applicable updates prior to ordering.

CATALOG DIVISION

This catalog is divided into major sections as to the type of material contained within. To assist in locating specific information, each of these divisions is further divided into type or equipment categories with relevant models listed numerically within each category. Each page in each major section is identified by title and sequential page number in the page footer.

Major divisions of this catalog are as follows:

- A. **General (Dealer Support) Materials** - Forms, binders, microfiche sets, viewers, bulbs, and other materials NOT applicable to a specific machine model or are considered general use.
- B. **Model Listing (English)** - Detailed model listing sorted by equipment type and further divided into model and/or usage categories. All publications relative to specific models are provided. Publications in this section are ENGLISH LANGUAGE.
- C. **Model Listing (Multi-Language)** - Detailed model listing sorted by equipment type and further divided into model and/or usage categories. Publications relative to specific models are provided. All publications in this section are in ALTERNATE LANGUAGE(S) or MULTIPLE LANGUAGES.
- D. **Footnotes** - "Keyed" footnote indicators, provided in previous sections, are referenced in this section. Each footnote is uniquely identified with a code prefix to match the column listing for a particular publication type for specific model(s).
